Meat Traders

Dear Sir / Madam

OUTBREAKS OF AVIAN INFLUENZA (AI) IN DUBOIS COUNTY, INDIANA, USA

USA reported outbreaks of H7N8 highly pathogenic Avian Influenza (HPAI) and low pathogenicity avian influenza (LPAI) in commercial turkey farms in Dubois County, Indiana.

In view of the outbreaks, AVA will impose a temporary restriction on the importation of poultry and poultry products from Dubois County with immediate effect. Heat-processed poultry products, which meet the requirements for heat inactivation of AI virus, will not be affected. For import from unaffected areas in USA, additional certification is required on the veterinary health certificate as listed on Annex 1.

Please contact Mr Lai Fah Choong or Ms Lily Suryani at 6805 2857 / 6805 2855 should you have any enquiries on the import of poultry and poultry products.

Yours faithfully

Li Lu
Executive Manager (Food)
Quarantine & Inspection Group

Annex 1

The additional certification should state on the Veterinary Health Certificate:

- a. Highly pathogenic avian influenza (HPAI) and H5 and H7 low pathogenicity avian influenza (LPAI) are notifiable diseases in the country of export.
- b. The birds from which the meat was sourced were not vaccinated against H5 and H7 subtypes of avian influenza (AI), as defined by the World Organisation for Animal Health (OIE).
- c. The poultry meat and meat products were not derived from birds originating from Dubois County, Indiana.
- d. The poultry from which the meat was derived were born, raised, and slaughtered in USA, or were legally imported as day old chicks from countries with equivalent poultry health status.
